### **The largest industrial power company in Europe settled in Suzhou Industrial Park**

2010-11-25

---

Recently, a leader in DIN rail switch technology and the largest industrial power company in Europe—PULS (Suzhou) Co., Ltd. opened in Suzhou Industrial Park. Founded in 1980, with its headquarters in Munich, PULS now has logistics and production bases in Germany, Czech and Suzhou of China, sales and service companies in many countries including Switzerland, Britain, America and China. The Co. has developed into a global enterprise. As a logistics and production base in the Asia-Pacific region, the PULS (Suzhou) Co., Ltd., which covers an area of 14,000 square meters, has built a multifunctional comprehensive building integrating office, R&D, logistics and production in the Park. It plans to complete investment of over 10 million Euros in 5 years, reach world-class productivity level in the next 10 years, and will build the first R&D center for power supply products outside European region at the end of this year. It will make efforts to develop the Co. into a new global center of competitive power.

---

[Origin: Suzhou Industrial Park]
